Objective

Seeking a Python Developer role where I can apply my skill in Python, web development and database management to build efficient applications.

Projects

- **Quiz Game Model using Python:** Built an interactive quiz game with multiple categories, difficulty levels, and real-time scoring, implementing core programming concepts.
- **Hand Gesture Recognition System:** Developed a system using OpenCV and MediaPipe to detect and respond to real-time hand gestures from a camera feed.
- **AI-Based Virtual Assistant for Seamless System Control and Web Interaction:** An AI-powered virtual assistant that enables users to control system operations, access live data (eg., weather), launch applications, set reminders, and enjoy entertainment through voice or text commands. Built with NLP and speech recognition, it delivers a smart and interactive experience for personal and professional use.
- **Personal Resume Website:** Designed and developed a responsive resume website using HTML, CSS, and JavaScript, featuring structured sections, clean UI design, and interactive navigation.

Education

Jamia Hamdard University

Bachelor of Technology (Computer Science & Engineering)

CGPA: 7.56

July 2021 - May 2025

New Delhi, India

Technical Skills

- **Programming Languages:** Python | **Operating Systems:** Windows, Linux
- **Web Development:** HTML, CSS, JavaScript, Flask
- **Database Management:** MySQL | **Tools and Technologies:** Vs Code, Git, GitHub
- **Other** Machine Learning, Deep Learning, NLP
- **Libraries:** NumPy, Pandas, TensorFlow, Scikit-Learn, seaborn, OpenCV, MediaPipe, keras

Soft Skills

Effective communication, problem-solving, teamwork, adaptability, time management, and a strong work ethic.
